

“ With an astounding variety of activities, facilities and available professionals, we have grown quite a bit since our first days over 80 years ago. We adapt with healthcare to provide the most positive experience. ”

THE THREE O'S
OBLIGATION
OPPORTUNITY
OUTCOME

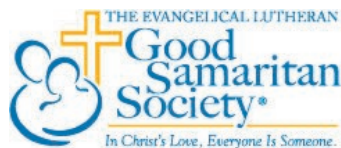

We are called to share God's love in word and deed. We do so by being a leader in supporting well-being. We know we are effective when each resident we serve feels loved valued, and at peace. "Be completely humble and gentle; be patient, bearing with one another in love" - Ephesian 4:2

PROVIDING CARE

*With Christian Dignity
In Elk Horn, IA*

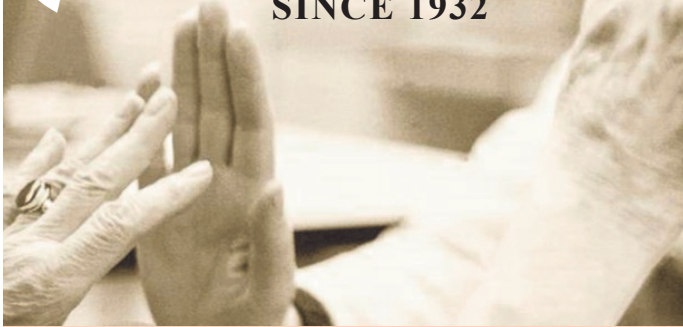

Salem
Lutheran Homes
— & REHABILITATION CENTER —

TOUCHING LIVES

WITH CHRISTIAN DIGNITY SINCE 1932

Skilled Nursing & Veterans Certified Facility.

Salem features a wide range of activities, staff chaplain, memory care and a comprehensive rehabilitation therapy program. Funding sources include Medicare, Medicaid, private long-term care insurance. In addition to providing large private rooms, Salem offers professional 24-hour nursing care in atmosphere of comfort, compassion and Christian dignity.

Memory Care

Having Alzheimer's or other dementia does not change the need for someone to be loved, valued, and treated with dignity. We know the hardest part is the emotional toll of seeing someone you love face the daily challenges of the disease. We want you to know one simple fact: Our residents are each cared for in a way that suits their own physical, emotional, and spiritual needs.

Post Acute Rehabilitation & Outpatient Therapy

Our services can significantly reduce the need for additional hospitalization. Our interdisciplinary approach to care has ensured positive outcomes for individuals in need of: orthopedic rehabilitation, stroke recovery, wound care, pain management, post-cardiac recovery, and bladder training.

Senior Apartments

Feeling at home means feeling comfortable, relaxed and at ease. Home is a place where you feel respected, valued, satisfied and free to be yourself. Home is a place you make your own at our Senior Apartments.

A COMBINATION OF SKILLED NURSING, MEMORY CARE, PERSONALIZED REHABILITATION SERVICES AND HEALTHCARE.

Activities for the Mind & Body

Every month we put out a new activities calendar filled with music, arts, pet therapy and crafts events. In addition to our activities we have daily devotions 7 days a week. Our activities program strives to keep residents busy.

Residential Setting

Located in the scenic Danish village of Elk Horn, Iowa we live in a close knit community built upon rural values. We focus on caring for the whole person— body, mind and spirit. Along with 24 hour skilled rooms, we have rehab-to-home suites that are also furnished to make the transition easier for those needing short-term. Residents enjoy two dining areas. Both dining areas have been newly refreshed and one is designated for rehab-to home patients.

Dietitian on Staff

Our Dietary Director, Pam Larsen received her education from North Dakota State and has been with us since 1982 providing us with a mouth-watering dietary program and meals on wheels service. Residents receive three portioned controlled and tailored meals daily along with a snack cart that makes room-to-room visits twice a day.

Physical Therapy & Rehabilitation

The addition of Accelerated Care Plus state of the art therapeutic modalities has increased the success rate of many clients who were out of treatment options. Ultrasound, shortwave diathermy, gentle electrical stimulation or infrared light have been used to treat pain, swelling, arthritis, muscle weakness, balance and coordination problems, falls and bladder control problems.

Veteran's Certified

The VA will only pay for our nursing care if you meet eligibility criteria involving your service connected status, level of disability, and income. Contact a VA social worker and find out about your eligibility— medical care— 1-(800)827-1000

Advance Care Planning

With team dedication, we create plans by diagnosis and functional capabilities, including: emotional, mental, and physical to reduce risk of re-hospitalization after admittance. Salem Lutheran Homes and Rehabilitation Center is below national average for re-hospitalization rates. Find out more information on our care planning by calling our Admissions Director, Beth Larsen, 1-(712)764-4228
